Artifact Catalog

Artifact Catalog: 230 kV Line Survey

Brockington and Associates, Inc. uses the following proveniencing system. Provenience 1 designates general surface collections. Numbers after the decimal point designate subsequent surface collections, or trenches. Proveniences 2 to 200 designate shovel tests. Controlled surface collections and 50 by 50 cm units are also designated by this provenience range. Proveniences 201 to 400 designate 1 by 1 m units done for testing purposes. Proveniences 401 to 600 designate excavation units (1 by 2 m, 2 by 2 m, or larger). For all provenience numbers except 1, the numbers after the decimal point designate levels. Provenience X 0 is a surface collection at a shovel test or unit. X 1 designates level one, and X 2 designates level two.
